Tanzplattform brings together people with many different perspectives, experiences, and identities. This togetherness is our strength – and it requires mutual respect and attentiveness. While we strive to create a space that is sensitive to discrimination and violence, boundary-crossing behaviour may still occur. This is why we take discrimination and violence seriously and actively work to address them.

If you witness or experience discrimination, please report it to the Festival Centre, the Quiet Room, or by phone to the Awareness Team.

If you need a break or are looking for a calm place to retreat, the Quiet Room in the Festspielhaus is available to you.

Here, you can also watch some of the selected productions on video if you missed a performance or were unable to attend.
